THE BUSY GIRL'S SOLUTION TO BEAUTIFUL SKIN...

Sue started www.happybabble.com in January 2007 because she was fed up with not being able to buy an effective facial care product without breaking her bank. Working in the City also meant that she worked long hours in the week and her weekend was filled with doing chores in the flat she shares with her husband and her 3 year old dog which demands long walks in the park. If she had any time left, she treated herself to facial treatments. At £50 per treatment for microdermabrasion, she could not keep up with the treatment because there are always unexpected bills to pay. Such is life....

About 2 years ago, Sue remembered **Marvel Gel** she used every now and again for about 13 years and decided to go back to it to replace the expensive facial care product and facial treatment she refused to pay for. Sue stocked up whenever she went home to South East Asia or when she ran out, she relied on her friends to bring it over when they coming over here for holiday.

Late last year, she decided to import Marvel Gel to introduce to all the busy girls out there. Marvel Gel is actually an exfoliant. Without the grainy bits that feels like sand paper on your face when you apply it. Apply the gel on dry face and rub it gently. You will see, very slowly, old dead skin that you rubbed out. It works fantastically and has never ever failed. It can also be used to remove make up. As you remove your make up after your long hard day at work or even after your hard partying (always remove make up before bed time...) you not only take off your make up, you also exfoliate, removing dirt and dust from pores, clearing it from any potential spots! The product is fantastic.

Now, Sue exfoliates with Marvel Gel while watching television or when she is surfing the net, about 4 times a week, to keep her skin clear and it is working perfectly well. It fits into her busy schedule and her bank manager is happy that she is not breaking her bank account in order to look fantastic...

It cleans, exfoliates and puts the glow back in your skin, immediately, all in ONE application.

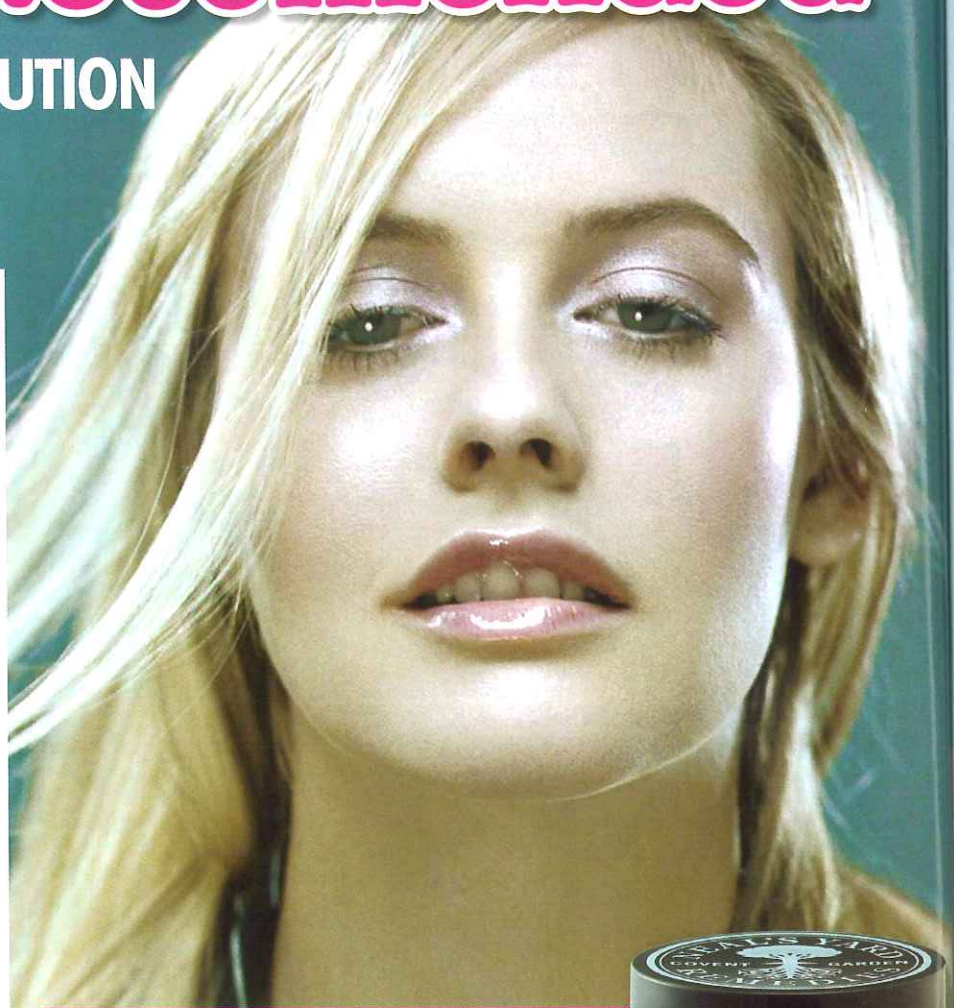

Fiona, owner of Beauty Swap Shop www.beautyswapshop.co.uk tried the product and was impressed with how quickly she saw an improvement in her skin. "I have always suffered with regular breakouts on my face and within 24 hours of using Marvel Gel I could see a significant change for the better in the way my skin looked. I have recommended Marvel Gel to all my members, friends and family and I am sure Sue will have great success with her new business"

Purify your face

Palmarosa Purifying Facial Mask is one of three new organic facial masks tailored to different skin types to give the face a deep, restorative cleanse. Palmarosa Purifying Facial Mask has been designed to look after oily and combination skin (e.g. oily/normal; oily/dry; dry/normal) to help balance skin secretions and skin hydration, as well as unblock pores, reduce blemishes and gently slough the skin to reveal a brighter, more radiant complexion.

The product uses four new ingredients – mahonia, which is a skin cleanser and restorative; maple, which is a natural exfoliant; spirulina, which is bursting with antioxidants and is a natural skin nourisher; and vanilla extract, which gives the formula a sweet scent. Palmarosa Purifying Facial Mask is organic and certified by the Soil Association. It contains a gentle preservative system using levulinic acid, tocopherol, propolis and potassium sorbate, which combine to give the product a sturdy shelf life without the use of synthetic or semi-synthetic preservative agents.
