### A STICKY ISSUE

How many times have I heard women demand a lipgloss that feels light and non-tacky, only to moan that it has no staying power? You can (and should) demand a lot from your cosmetics, ladies, but you can't have it all! Gloss that glistens like vinyl and stays put has to be seriously gloopy and sticky – and that's just what *Lipstick Queen Shine*, £20, is. The stuff, in six shades, was a cult hit in the mid-'90s and has been brought back – because it's fab! Pucker up and get stuck in.

Dear Inge,

Have you discovered anything that gets rid of blackheads?

MARINA COBB, 22, LEICESTER

I like the gentle GINVERA GREEN TEA MARVEL GEL, £15. Just rub a small blob into blackhead-prone areas and, after a few seconds, little flakes of dirt and dead skin cells will come off – very satisfying! Skin is left squeaky clean and, if you do it regularly, your pores should stay purged.

### AUGUST'S BEST BUYS

**1** Dermalogica Antioxidant Hydramist, £27.20, gives your face brilliant on-the-go hydration and protection from pollution.

**2** Klorane Mango Butter Conditioning Balm, £5.75, is a beautifully nourishing treat for your stressed tresses.

**3** Champneys Perfect Sleep Bath Milk, £8, is so packed with pure lavender and soothing hops, you'll be snoozing in seconds.

## 5 whizzy beauty gadgets

The nifty *No! No!*, £140, zaps body hair with a heated wire and destroys hair follicles over time – like professional laser hair removal.

Featuring serious anti-ageing technology, *Dr Lewinn's Line Smoothing Complex S8*, £50, looks like something from physics class.

No, it's not an iPod, it's hyper-blendable *Bourjois Ombre Stretch Ultra Stretchable Colour Eyeshadow*, £6.95.

*Avon Pro-To-Go Lipstick*, £7, slides open and shut with a quick flick of the thumb. It'll save you seconds!

Looking like it's just flown in from space, *Azzaro Women Now*, £19 (30ml), is spicy-fresh.
